

# BATHROOM REMODEL CHECKLIST

Downloaded from [BathroomRemodelChecklist.com](http://BathroomRemodelChecklist.com)

## 1. Planning and Preparation:

- Define your goals and reasons for remodeling.
- Set a budget for the entire project.
- Determine the scope of work: Are you doing a partial or full remodel?
- Research and gather inspiration from magazines, websites, and social media.
- Measure the current bathroom dimensions and layout.

## 2. Design and Conceptualization:

- Create a rough sketch or layout of your new bathroom design.
- Choose a style and color scheme that suits your preferences.
- Select fixtures, materials, and finishes for flooring, walls, countertops, and cabinetry.
- Decide on lighting options, including task lighting, ambient lighting, and decorative fixtures.

## 3. Permits and Regulations:

- Check local building codes and regulations to see if you need permits.
- Apply for necessary permits if required.

## 4. Hiring Professionals:

- Research and hire a reputable contractor or design-build firm if you're not doing the work yourself.
- Hire a plumber and electrician for specialized tasks.

## 5. Demolition and Prep:

- Remove existing fixtures, cabinetry, tiles, and any other materials.
- Turn off water and electricity to the bathroom.
- Cover adjacent areas to minimize dust and debris.

## 6. Structural Changes:

- Make structural changes if needed, such as altering walls or moving plumbing/electrical lines.

## 7. Plumbing and Electrical:

- Install new plumbing lines or relocate existing ones.
- Update electrical wiring and outlets to meet code and accommodate new fixtures.

**8. Flooring:**

- Install new flooring materials, such as tiles, vinyl, or hardwood, according to your design.

**9. Walls:**

- Install new drywall or backer board if necessary.
- Apply paint, wallpaper, or other wall treatments.

**10. Cabinetry and Countertops:**

- Install new cabinets, vanities, and storage units.
- Mount countertops made from materials like granite, quartz, or marble.

**11. Fixtures and Fittings:**

- Install new sinks, faucets, showerheads, and bathtub or shower units.
- Set up the toilet and bidet, if applicable.

**12. Shower/Bathtub:**

- Install new tiles or other wall coverings.
- Set up the shower pan or bathtub.
- Apply grout and sealant to ensure water resistance.

**13. Lighting and Ventilation:**

- Install new light fixtures and ensure proper placement for optimal lighting.
- Install or upgrade ventilation, such as exhaust fans, to prevent mold and moisture buildup.

**14. Accessories:**

- Install towel bars, hooks, shelves, and other accessories.
- Hang mirrors and medicine cabinets.

**15. Final Touches:**

- Apply final coats of paint or finishes.
- Perform a thorough cleaning of the entire bathroom.

**16. Inspection:**

- Arrange for a final inspection to ensure everything meets building codes.

**17. Enjoy Your New Bathroom:**

- Once the project is complete and passes inspection, start using and enjoying your newly remodeled bathroom!

Remember that the timeline and specific tasks might vary depending on the scale of your remodel and local regulations. Always plan ahead and consider consulting professionals for advice or assistance when needed.
